Steps to submit assignment

1 Login in to your github account

2 Go on the link: https://github.com/regexss/REGex-ONLINE-Training-2020

3 Fork the repository into you account

- ● Fork option is available on the top right of the above page on the given link
- ● Click on fork

4 Make a folder on Desktop with your name and put all the files with the assignment task.

5 Click on the upload button as shown in image below
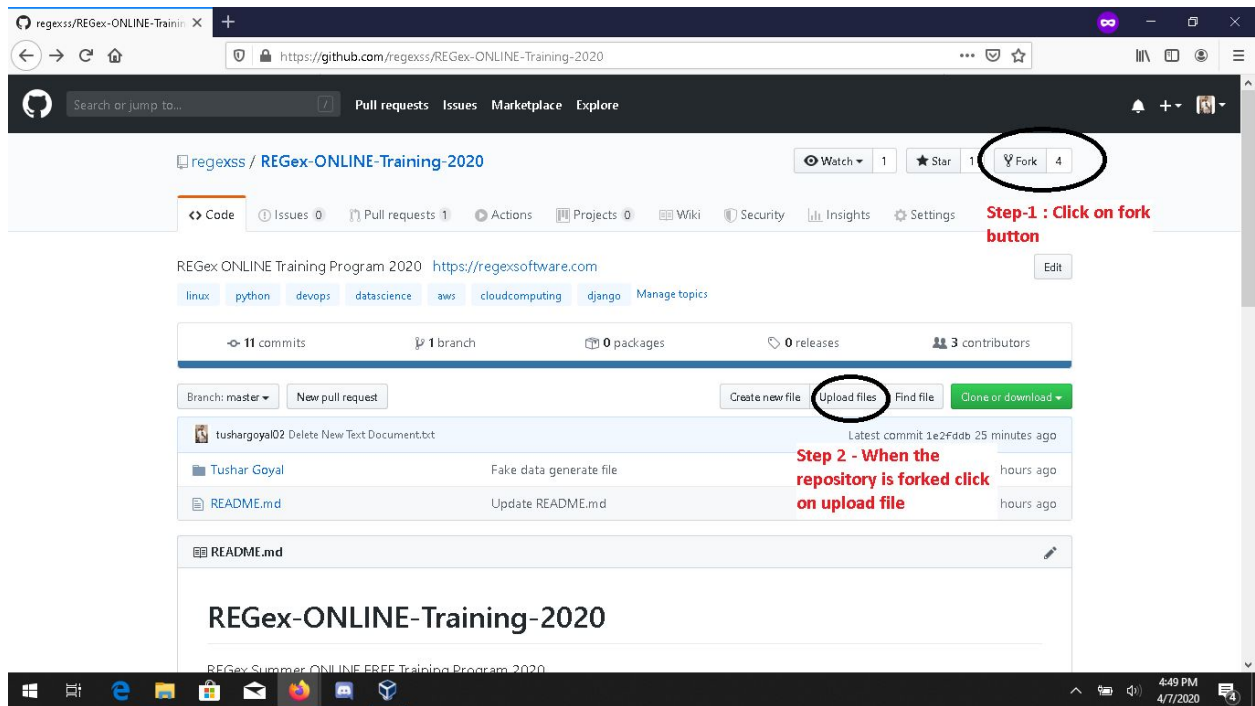

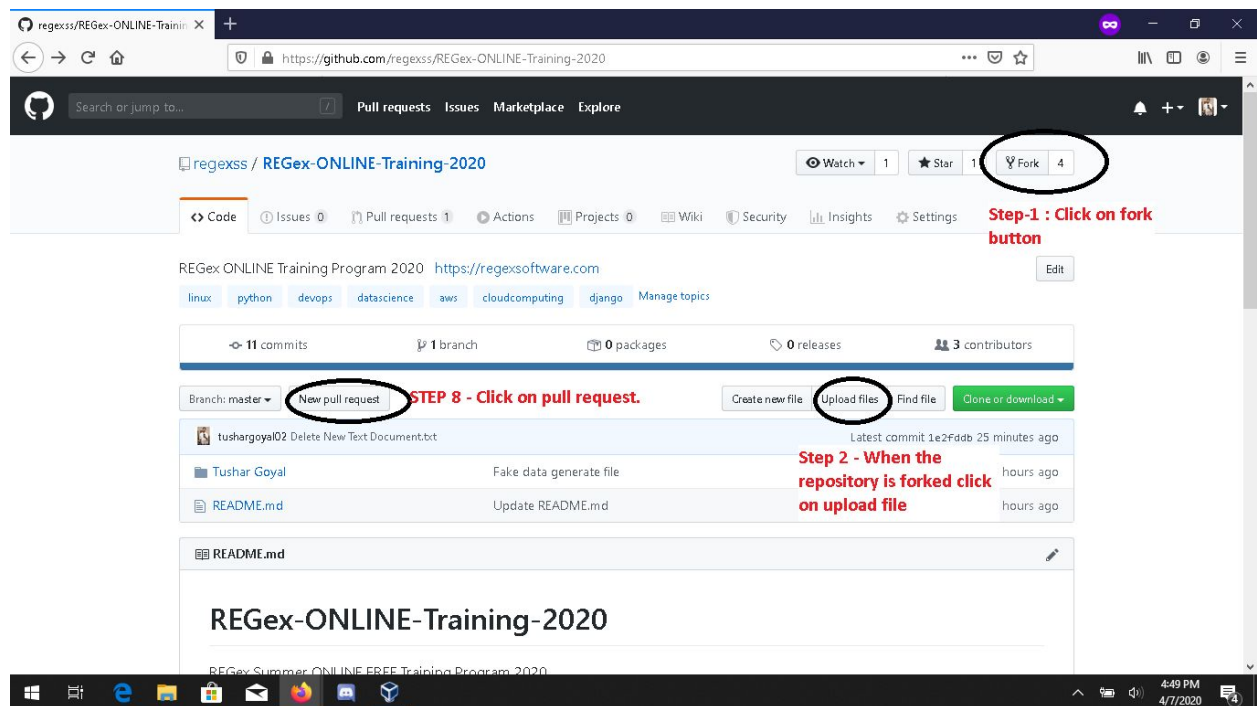

6 After this follow the below steps
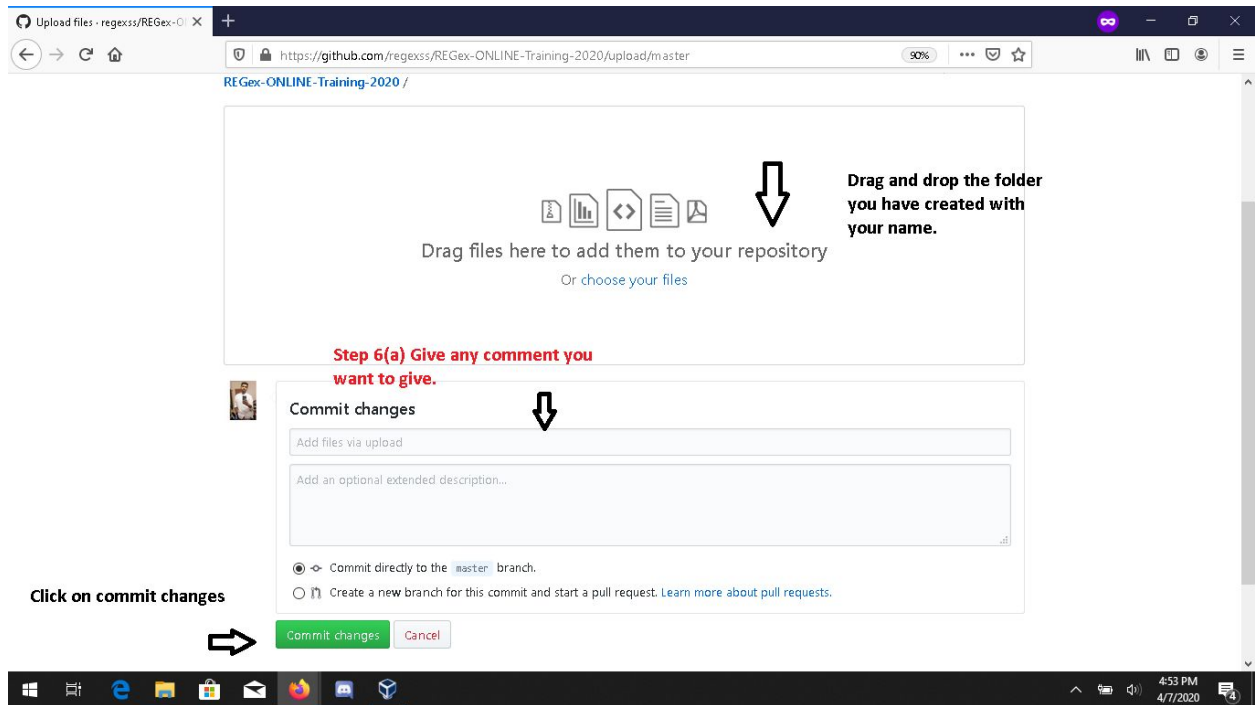

7 You should upload the daily assignment task like same from 5th step.

NOTE - Don't fork the repository again.

8 To submit the assignments weekly for the certificates. Follow the given below steps.

9 After the previous step click on [**Create New Pull REQuest**]
10 On the next page Give any **title** name you want to give.
- Afterwards click on the **Create pull request**
- Now you can come back to your repository.
